

## Marine Boat Flush Mount Fuel Gas

### Tank Vent

Find a huge selection of Marine Boat Flush Mount Fuel Gas Tank Vent from China at POWER MARINE. We have been specialized in marine hardware for more than 25 years. Our product is made of 316 stainless steel, which has good

corrosion resistance. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

## Marine Boat Flush Mount Fuel Gas Tank Vent

### Product Introduction

POWER MARINE is China manufacturer & supplier who mainly produces Marine Boat Flush Mount Fuel Gas Tank Vent with many years of experience. Hope to build business relationship with you. We follow the quality of rest assured that the price of conscience, dedicated service. Marine Boat Flush Mount Fuel Gas Tank Vent has a longer service life in seawater, ultraviolet light and humid environments. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

### Product Parameter (Specification)

Product name	Marine Boat Flush Mount Fuel Gas Tank Vent
Specification available	Multiple sizes
Standards that follow to	ISO 9001, CE, TUV, CSS, SGS.
Samples available	Yes.

## Shandong Power Industry and Trade Co., Ltd.

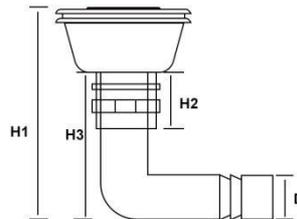

Address: Chengyang District, Qingdao, Shandong Province, China

Tel: [+86-15865772126](tel:+86-15865772126)

[+86-0532-83875707](tel:+86-0532-83875707)

E-mail: [andy@hardwaremarine.com](mailto:andy@hardwaremarine.com)

Packing method	Bubble bag+Wooden carton
Production lead time	10-15 days for a 20ft container, 20-25 days for a 40ft container.
Warranty time	Support returns and exchanges
Payment term	T/T
FOB loading port	Qingdao China

### Product Feature And Application

The history of Marine Boat Flush Mount Fuel Gas Tank Vent dates back to the advancements in marine engineering and the need for improved safety measures in the maritime industry. In the early days of maritime transportation, tanks on ships and boats were often not properly vented, leading to pressure imbalances, fuel contamination, and the risk of explosions. As these issues became more apparent, engineers started developing various ventilation systems to ensure the safe operation of vessels. The use of stainless steel in marine applications gained popularity in the mid-20th century due to its high corrosion resistance and durability. Stainless steel was found to withstand the

harsh marine environment, including exposure to saltwater, without rusting or deteriorating. As a result, engineers began incorporating stainless steel into the design and construction of marine components, Marine Boat Flush Mount Fuel Gas Tank Vent. Over time, advances in manufacturing techniques and materials allowed for more precise and efficient designs, enhancing the performance of marine straight pipe tank vents. The incorporation of one-way valves and air filters further improved their functionality by preventing the ingress of water, debris, and insects. Today, Marine Boat Flush Mount Fuel Gas Tank Vent are commonly used in a wide range of marine vessels, from small boats to large commercial ships. They have become a standard feature in fuel tanks and other enclosed spaces to ensure proper ventilation and pressure regulation. As technology continues to advance, further improvements in design, materials, and performance are likely to be seen in stainless steel marine straight pipe tank vents. With an ongoing focus on safety and environmental concerns, these ventilation systems will play a crucial role in maintaining the integrity of marine vessels and preventing accidents in the future.

### **Product Details**

The Marine Boat Flush Mount Fuel Gas Tank Vent is a special type of vent designed to be flush mounted on the surface of a marine gas tank. It relieves pressure and exchanges air with the surrounding environment, ensuring proper ventilation and preventing the build-up of potentially dangerous gases. Here are some key features of flush-mounted gas tank vents for marine vessels:

**FLUSH MOUNT DESIGN:** Marine Boat Flush Mount Fuel Gas Tank Vent is designed to mount flush to the surface of the gas tank, providing a clean, streamlined appearance. It eliminates any protrusions or obstructions that could get obstructed or damaged during use.

**Ventilation:** The main purpose of this vent is to release the pressure within the gas tank and allow for air exchange. It helps maintain proper pressure balance, preventing excessive tank pressure and ensuring efficient fuel flow.

**SAFE:** Flush-mount design reduces the risk of damage and accidental entrapment, which can lead to leaks or other safety hazards. It helps maintain the structural integrity of the boat and reduces the chance of any fuel spills or leaks.

### **Shandong Power Industry and Trade Co., Ltd.**

**Address:** Chengyang District, Qingdao, Shandong Province, China

**Tel:** [+86-15865772126](tel:+86-15865772126)

**E-mail:** [andy@hardwaremarine.com](mailto:andy@hardwaremarine.com)

**Corrosion Resistant:** Given the exposure of marine environments to water, salt, and other corrosive elements, Marine Boat Flush Mount Fuel Gas Tank Vent are typically made from corrosion-resistant materials such as stainless steel or durable plastic. This ensures their longevity and performance in harsh conditions.

**Compliance:** It is important to ensure that Marine Boat Flush Mount Fuel Gas Tank Vent comply with all relevant marine safety standards and regulations.

### Loading & Shipment

Thanks to superior quality, we have been establishing a close & long business partner relationship with the customers from more than 30 countries, and we've gotten so many positive feedback regarding the quality.
